

# India's 1st Anti-Microbial Wall Putty for Healthy Living

Microorganisms like microalgae, fungi, lichens and mosses develop on the surface of interior building materials under certain conditions of temperature, humidity and sunshine. Nuvoco's Zero M GermiCheck is an antimicrobial wall putty which kills bacteria to provide a safe indoor environment for healthy living. It is made from human safe technology that is safe for all types of putty application. It protects wall surface from stains and bad odours caused by microbes and is effective against 10 different bacterial strains when tested as per ASTM E 2180.

## The three advantages of GermiCheck - Keeping the germs in check now comes with extra advantages

### Anti-microbial benefit transferred to paint

Imparts germ protection benefits via microporous properties of any painted wall surface.

### Human safe technology

Safe for your family and applicator since made from harmless ingredients.

### NABL accredited and tested as per Singapore HDB standards against 10 microbes

*Aspergillus niger*, *Staphylococcus aureus*, *Escherichia coli*, *Pseudomonas aeruginosa*, *Penicillium citrinum*, *B. subtilis*, *B. cereus*, *C. albicans*, *S. cerevisiae*, *A. versicolor*.

# Benefits of Zero M Wall Putty
